## WHAT IS DATA?

Data are raw ingredients from which statistics are created.

# WHY DATA SCIENCE ?

- Growing Demand - **India** has over 93,000 job openings for **data scientists**
- Easy to grab a job - India is the **second-highest country to recruit employees** in the field of data science or data analytics, etc. with 50,000 positions available – second only to the United States.
- Unbeaten salaries - Companies are throwing **huge salaries** at those having skills to take on the positions of Data Analysts, Scientists, Engineers, etc.
- Evolving Field - A big reason for taking up Data Science as a career, there is a **40 percent rise** in demand approximately for data scientist since January 2019, and more than 300% since 2013.
- Add value to business- Data Scientists plays a **very important role they serve as a trusted adviser and strategic partner to their management.**

# WHO IS DATA SCIENTIST ?

A GOOD DATA SCIENTIST  
IS SO SOMEONE WHO  
CAN ASK GOOD  
QUESTIONS !!

5

- Business Expert
- Innovator
- Solution Architect
- Network Builder
